CORE COMPETENCIES

Founded by Micah Reed in 2017, Motus Tracking Solutions is a SDVOSB that has excelled in Vehicle Camera Systems and Asset Tracking. Our main goal is to provide the highest quality service with the same positive outcome every time. We utilize current dispatching solutions that allow us to stay in step with your company needs. Motus self-performs all their contracts from installation, technical support, and training. All our devices are assembled in Clarksville IN, United States of America.
